

BESPOKE MAP INITIAL ENQUIRY FORM

Hello and welcome to the beginning of the map commissioning process!

The purpose of this form is for me to gather some information from you to find out the basics of your map.

Your name

Your email address

Who will the map be for?

When is the deadline for the map?

What is the occasion?

Please write a brief description of the map and any initial ideas you have (we will work together to develop this).

(If you want the recipient to be part of the creative process, then please see voucher option below)

Voucher Option

Please tick here if you would like to give an illustrated voucher to the recipient instead of a completed map. This option is often chosen if you know they would love to be part of the creative process. We can describe the map to them without letting them know the cost of the gift. Please fill out of much of the form as you can excluding the description.

Pricing:

When pricing up the map, there are lot of different elements to consider. The initial research, layout and background design cost is £150 and each element layered onto the map will add to the price. A building takes longer and is more detailed compared to a more simple icon (see images below as an example of the 2 ways you might represent a wedding venue). Previous final maps have been from £200-£600.

As this is a significant amount; the map is often a gift from a group of friends or family. What is your estimated total budget?
